The Kason 0057 SecureGuard™ Locking Latch is a high-security walk-in lock that provides owners great flexibility in protecting valuable assets and products.

- **Keyed and keyless heavy-duty inside release latching options**
- **Self-locking when door is closed**
- **Can be locked open for easier access during high-traffic times**
- **Retrofits easily on most walk-in doors**
- **Offers freeze-resistant internal components**
- **Keyless inside release bypass knob**
 - Quick, key-free lock override
 - No time spent looking for a key
 - No possibility of a lost key or breaking off in lock
