

# 0057 SecureGuard™ Locking Latch with Keyed or Keyless Inside Release

Part Number: 10057\*

## FEATURES

- Keyed and keyless heavy-duty inside release latching system
- Locks automatically when door is closed
- Can be locked open for easier access during high-traffic times
- Retrofits easily on most walk-in doors
- Offers freeze-resistant internal components
- Uses quality high-security brass pin-type lock cylinder
- Available in rim cylinder and removable core cylinder lock models
- Keyless Bypass Knob Inside Release
  - Offers a quick, key-free lock override for easier access during high-traffic times
  - No time spent looking for a key
  - No possibility of a lost key or breaking it off in the lock

## FEATURES (0057-04 HIGH SECURITY)

- Complete system with pre-assembled cylinder lock
- Supplied with stainless steel strike for factory installation
- Cylinder locks are keyed differently with random numbers

## FEATURES (0057-08 REMOVABLE CORE LOCK SYSTEM)

- Complete system with removable figure-eight cylinder core allows fast, secure re-keying with any SFIC 6 or 7-pin core
- Supplied with stainless steel strike for factory installation
- Cylinder locks are keyed alike; core change key included

## FEATURES (0057-17 THROUGH-BOLT STRIKE)

- Stainless steel strike through-bolts with concealed bolt holes for simple, secure installation
- Enables No. 57 latch to replace most standard walk-in latches without additional panel reinforcement. Plate covers unused screw holes
- Use with No. 0057-04 or 0057-08 locking system flush door or door with offset up to 1-1/4" (31.6 mm)

## MATERIALS

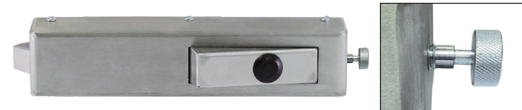

- Mounting Plates: Anodized aluminum
- Latch Body Cover: Anodized aluminum
- Latch Tongue: Zamak #3
- Pull Handle: Zamak #3, polished chrome plated
- Push Handle: Stainless steel
- Strike: Stainless steel
- Strike through bolts: Stainless steel
- Couplings: Plastic
- Weight: 12 lb [5,4 kg]

## DESIGN CRITERIA

- Aluminum mounting plates and body cover
- Mounts with 3 bolts into 4" thick door, minimum 30" wide
- Latch and handle through bolt with hidden hardware
- Designed for flush doors. Consult factory for offset doors
