

0488 Series Walk-In Push Bar Inside Release

Part Number: 10488 *

U.S. Patent No. 11,193,311

MATERIALS

- **Cross bar:** 304 stainless steel
- **Mounting brackets:** 304 stainless steel
- **Push rod:** 303 series stainless steel
- **Cover:** Die-cast aluminum
- **Pivot arm:** Die-cast aluminum
- **Hardware:** Stainless steel
- **Pin:** 304 stainless steel
- **Springs:** Music wire
- **End caps:** Black polyethylene

MOUNTING

For mounting on new doors with structural backing plates (not included), that are also appropriate for 1/4" diameter stainless steel fasteners. Consult Kason Engineering Department for field retrofitting instructions.

Mounting of 0488AG is in vertical orientation on door to match the dual latch center-to-center distance

0488CR Walk-In Push Bar Inside Release Retrofit Kit

Part Number: 10488CR0318763

- Large hands-free contact bar to open door
- Crossbar design provides simple low-effort operation
- Stainless steel and aluminum materials
- Accommodates left and right handed doors
- Temperature Range: -40°F to 150°F (-40°C to 65°C)
- Works with Kason latch models 0056, 5656, 5688, 0058, 0077, 0078, and 0778
- Accommodates 3", 4", 5", and 6" door thicknesses
- Retrofit kit available
